## REFUSED TO ACQUIT.

## The Edelman Case is Not Yet Settled.

## THE JURYMEN STOOD FIRM

And Flatly Refused to Obey Judge Wade's Instructions to Bring in a Verdict of Acquittal.

A hung jury. Seven for conviction, and five for acquittal. The jury discharged! This is the result in the trial of Henry Edelman, ex-Deputy County Clerk, who is charged with having caused to be presented a fraudulent claim to the County Treasurer for allowance.

The jury remained out all night, and at 10 o'clock yesterday morning, was brought into court. Judge Wade asked the foreman if any verdict had been arrived at. He was informed that the jury was unable to agree. The Court then instructed the attorneys for the defense to proceed with their case, but they declined to put in any evidence, and the Court then instructed the attorneys to proceed with the arguments.

Deputy District Attorney Hardesty opened for the prosecution. He reviewed the facts of the case as shown by the evidence.

Mr. White and Mr. Gage followed for the defense.

Mr. Campbell closed for the prosecution in a most effective and able argument. He complimented the jury on their independence and the true American manhood that they had exhibited in standing out against the instructions of the Court if the jury deemed them wrong.

At the conclusion of the argument Judge Wade delivered to the jury the following instructions:

THE JUDGE'S INSTRUCTIONS.

A number of instructions that have been asked by the counsel I will glance through and endeavor to change the jury with the substance of them so far as I find they are applicable to the testimony in the case. For the purpose of the case they may all be regarded as refused, but I think they will, in the main, be contained in the instructions. Gentlemen of the jury: When this case was submitted to you at the close of the testimony for the people, it was under the advice of the Court. Under that advice, there was but one thing that you could do—there was one kind of a verdict you could render, and that would be a verdict of acquittal, for the reason that the defense had not placed their case in your hands. Now, they have, and the matter stands upon a slightly different basis; but there has been no additional evidence introduced.

Singular as it may appear to you, gentlemen of the jury, possibly inspired by a sense of public duty and of public necessity, and of the necessities of the county of Los Angeles and the State and the people thereof, neither the Court nor the jury are here for the purpose of going upon a tour of investigation for the purpose of ascertaining whether a crime has been committed, nor of determining whether or not the defendant who appears before you has been guilty of a crime. However much we might desire to purge the state of crime, or to punish somebody for crimes that we believe to be committed, under the law we are confined to very narrow limits—both the jury and the court.

The limitations are prescribed for the court and the jury alike.

The section of the code under which this defendant should be punished, if at all, is as follows: "Every person who, with intention to defraud, presents for allowance or for payment to any State board or officer, or to any county, town or city, ward or village board or officer, authorized to allow or pay the same if genuine, any false or fraudulent claim, bill, account, voucher or writ, is guilty of a crime."

If the defendant is guilty of all the crimes in the decalogue, if he is not guilty of the crime charged in that section, for the purposes of this section, he is not guilty. The jury is not called upon to whitewash this defendant. They are not called upon to establish his character, or anything of that sort. They are just simply called upon to determine whether or not he is guilty of the offense charged within the limits of this section.

And, although you might believe from the evidence that he has been guilty of presenting a fraudulent claim for allowance, you cannot find him guilty under that section, although that is one of the crimes that is mentioned, for the reason that he is not here charged with that crime. Please bear that in mind.

The only purpose for which any evidence was introduced, or could be introduced in this case by the people, was for the purpose of showing the knowledge of the defendant, and so far as that goes, it is immaterial to you whether or not that is guilty of this crime, if, as a matter of fact, it was fraudulently issued with his knowledge, and you so believe from the evidence. So far as that branch of the case is concerned, that is simply to fix upon him knowledge so similar to that which has already been shown in the Edelman case.

The various warrants upon which Cohn received the money, were introduced in evidence. They are drawn in the party in whose favor they are drawn, "per B. Cohn." County Treasurer Banbury identified the indorsement upon the back of the several warrants as that of L. B. Cohn. The prosecution claims that the defendant, Cohn, is the person who presented the warrants to the County Treasurer. The defendant has for Counsel Messrs White and Gage.

It is absolutely no testimony, no evidence that the jury has any right to consider as tending to prove the ultimate facts, and for that reason, you are instructed that the only verdict that you could render in this case, would be a verdict of acquittal. Swear the ball to take charge of the jury, Mr. Clerk.

THEY STAND FIRM.

The jury then retired, and until 3:30 p. m. they were out. They then returned to the courtroom for further instructions. The following is an exact transcript of the record of what occurred:

A Juror: Judge, there is a question we would like to ask you.

The Court: State it.

A Juror: If we are to understand from that charge that in order to convict there must be evidence of absolute presentation of the warrant on the part of the defendant?

The Court: There must be evidence of the presentation by himself or by some one who acted immediately as his agent and for him in the matter.

A Juror: There is another question, whether the statute don't distinctly state that he must do it himself. In this charge it says "or cause to be done," but the statute don't say "or cause."

The Court: It does not.

The Juror: Yes.

The Court: The statute does not say "cause," and the "or cause" is entirely superfluous in the information, and does not increase the force of the crime that is charged against him, that of presenting.

Mr. Hardesty: I will ask, Your Honor, in connection with the first question that was asked you, to give this instruction: "Or if the defendant aids, counsels, assists or procures it to be presented, that he is a principal."

Mr. White: There is no evidence—

The Court: I shall give no such instruction as that, because there is no evidence upon which to base it. The instructions upon that question would be good sound law, abstractly speaking, but there being no evidence upon which to base such instructions, the request is refused. Is that all, gentlemen?

A Juror: I think so. We would like to have the reporter read your instruction, Judge.

A Juror: Judge, it is impossible for this jury to get an agreement: it is keeping—

The Court: Well, after they have asked for these additional instructions I think they are entitled to deliberate a little while before they can arrive at any conclusion.

A Juror: Oh no.

Mr. Gage: We would like to have Your Honor tell the jury—I don't think they understand it from their question—we would like for you to instruct them that there is no evidence at all in the case that Henry Edelman caused that warrant to be presented, or any warrant to be presented to the County Treasurer.

Mr. Hardesty: I object to that.

The Court: I will decline to give that instruction because it is utterly immaterial; the charge that he caused it to be presented is utterly immaterial to the information.

Mr. Gage: Exactly.

The Court: And consequently, any instructions upon that would be utterly immaterial.

A Juror: Will you please repeat that sentence again, or the reporter, perhaps, can read it.

The Court: That is, the charge in the information that he caused it to be taken is immaterial, and, therefore, I can give no instructions upon the question, and the evidence as to whether he caused it or not, any evidence of his causing it remotely, would be utterly disregarded by the jury if they follow the instruction, because that has no place in the information and cuts no figure.

A Juror: I am asked to ask another question. Is there any other verdict than these two?

The Court: None whatever.

A Juror: Forms prescribed there?

The Court: None whatever.

A Juror: That is the way most of us understand you.

The jury then retired and were out about one hour when they were again called in. The foreman announced that they were unable to agree, and that in his opinion no agreement could ever be reached.

Judge Wade then discharged the jury. They stood seven for conviction and five for acquittal.

AFTER MR. COHN.

An interesting sequel to the Edelman case.

As a sequel to the trial of Henry Edelman upon a charge of presenting fraudulent claims to the County Treasurer for allowance, there was yesterday commenced in Department Four of the Superior Court the trial of the civil suit of the county of Los Angeles against L. B. Cohn. This is an action to recover \$2000, which the defendant Cohn secured on fraudulent warrants introduced on August 1, 1888, and September 1, 1889.

The sum of \$2000 is the net total amount that was paid to Cohn on warrants issued to supposed jurors upon the jury lists returned by Henry Edelman from Department One of the Superior Court during the time above stated.

Cohn was the all-essential witness in the trial which closed yesterday, but whose memory would not admit of his collecting from whom he received all of these warrants, which cover a sum of over \$2000.

guilty. His bail was fixed at \$2000. Failing to give it he was returned to jail.

Joseph Dol was arraigned before Superior Judge Cheney yesterday on the charge of having committed an assault with intent to commit murder. He was given until the 21st to plead.

P. Saldaña was fined \$15 in Justice Savage's court yesterday for assaulting the able French journalist, J. P. Goytino.

NEW CASES.

The following new cases were yesterday filed with the County Clerk:

J. Baldwin vs. W. E. Rogers and others for \$1000 and foreclosure of mortgage.

W. F. Hallin asks for a temporary injunction restraining F. W. Townsend from laying or digging ditches on the defendant's property in the Chavez tract.

W. A. Morgan vs. F. C. and Charles Smith, constables, for \$500 damages for the illegal seizure of one horse, cart, and set of harness.

The Western Electric Company sues T. H. Rhodes and others for \$517.34.

Julius Phillips files a petition in insolvency. His assets are nothing, and his liabilities are \$1539.33.

SUNDAY CLOSING.

The Result of the Election Yesterday.

SALOON MEN KNOCKED OUT.

The Proposition Carried by About Five Hundred Majority—The Total Vote Close to Six Thousand.

A majority of the citizens of Los Angeles yesterday decided, by their votes, that they favored the closing of the saloons on Sunday.

This result is really no surprise, as it was anticipated by a great many people who had watched the signs of the times closely as well as the general drift of public opinion.

The polls opened yesterday morning, in all of the precincts, at the usual hour and the voting commenced early. Up until 11 o'clock, most of the precincts, a steady stream of voters came up to the polls and deposited their votes either for or against the proposition.

For an election of the character a very large vote was polled, passing the 6000 mark. This is somewhat unusual and really was the anomalous feature of the day.

The saloon men were in force in all of the precincts, their places of business being closed all day. They had carriages and conveyances to carry voters to the polls, and certainly labored diligently to secure a majority against Sunday closing.

On the other hand, the advocates of Sunday closing were very careful to watch the polls and to see to it that the vote of every one who agreed with them was deposited in the ballot box.

Generally speaking, the election was very quiet. There was, however, some trouble in the Eighth Ward at Precinct B. Theodore Bauer, Billy Manning, Jake Fleischman and Jacob Hein, so it is alleged, endeavored to interfere with a citizen who was endeavoring to deposit a ballot in favor of the closing of the saloons. The voters' balls were taken from him, so bystanders assert, and torn up.

The result of this little incident was that upon complaint of J. C. C. Harriet of No. 104 South Broadway, was present during the count and witnessed it. He says that while the box was open he saw a large handful of ballots thrown into the box by some one unknown to him. Against this no protest was made, so Grant claims. He says also that there was only one member of the Citizens' Committee on hand to watch the count.

In the other wards of the city no trouble of any consequence occurred or was reported.

The result of the various precincts and wards is as follows:

FIRST WARD.

Precinct	For	Against	Total
A	374	83	356
B	160	103	263
Majority for, 249.			

SECOND WARD.

# ORANGE LANDS FOR THE SEMI-TROPIC LAND AND WATER CO.

Have about 20,000 acres left of their original purchase of 29,000 acres of the best Orange Land in Southern California.

We have always sold our lands for \$200 per acre, until this fall. Now we have reduced the price and fixed our terms to bring the land within the reach of all. We are arranging two irrigation districts under the "Wright's Irrigation Act," and are selling land in one of these districts at \$75 per acre, with a rebate of \$15 per acre for improvements, to be put on the land by the purchaser the first year. This leaves the net price

AT \$60 PER ACRE!

Payable \$10 per acre cash, the balance in three equal payments, due in two, three and four years, at 8 per cent. interest. In the other district we sell the land for \$100 per acre, with a rebate of \$25 for improvements on the land by the purchaser the first year, which leaves the net price

AT \$75 PER ACRE!

To be paid \$10 per acre cash, balance in two, three and four years, at 8 per cent. interest.

Our lands lie four miles west of San Bernardino and Colton, on the Santa Fé and Southern Pacific R. roads, seven miles north of Riverside, and we are prepared to establish the fact that in quality and location they are not excelled in this country. Our elevation is 1300 feet above sea level, being about 400 feet higher than Riverside, and almost entirely free from frost.

The home office of the Company is at Rialto, one of our four railroad stations, and the offices are: Ex-GOV. SAM'L MERRILL, President; MAJ. GEORGE H. BUNEBRAKE, Vice-President; F. C. HOWES, Treasurer; J. L. MERRILL, Secretary.

L. M. BROWN, 132 N. Spring Street, Los Angeles.

Is the Agent of the Company in this city, who will give further information on application, either in person or by letter.

A Land Buyers' Excursion is personally conducted to Rialto over the Santa Fé R. every Friday by L. M. Brown, leaving Los Angeles at 8:30 a. m., returning at 8:30 p. m. Tickets, however, are good for ten days. Fare for round trip, \$2.50, which will be deducted from first payment on purchase price.

He was sent out by the Postmaster-General, and after he is through with Southern California he will have visited the whole coast, from Washington to San Diego. He is highly pleased with Southern California, and the chances are that the service will be increased on his return to the national capital, as the mail facilities are hardly what they should be in such a rapidly-growing country. He has already discovered several important changes that will be made at once in the way of strengthening the number of mail clerks.

This is the first time a superintendent of mail service has visited Southern California, and it is believed that much will be done for this end of the State if proper appropriations can be secured.

Board of Supervisors.

The Board of Supervisors at their meeting yesterday completed the official count, but not until Thursday will the footings be made so that the official totals can be obtained.

Some unimportant road matters were attended to.

The bid of J. C. Davis for a bridge over Smith's crossing was accepted. He was directed, however, to put in a forty-eight-inch instead of a forty-foot crossing.

The old-time petition of Al Cobler and J. S. McKenzie for salary as deputy county tax collectors during March 1887, under El Hammond, was again presented and again denied.

Two Small Fires.

There were two small fires yesterday morning between 9 and 10 o'clock. The first was caused by the burning of the machinery room of the Los Angeles Refining works on Mission road. The fire was caused by an explosion. Loss \$2000; covered by insurance.

The second alarm was caused by the burning of some grass on a lot belonging to ex-Mayor Workman, at the corner of Boyle and Louisiana avenues. The flames were extinguished before any damage was done.

Every family should use EUCALYPTA.

Medical DISEASES

-OF THE- Head, Throat and Lungs

Successfully treated by M. HILTON WILLIAMS, M.D.

M.C.P.S.O. 137 SOUTH BROADWAY, Los Angeles, Cal.

By his Aeron system of practice, which consists of Medicated Inhalant and Compound Oxygen, being administered to the patient instead of billing the system with poisonous drugs and medicine in periodic attacks. This is the system of practice which a now attracting the attention of the best physicians throughout every country in the civilized world, and truly wonderful are the results obtained after all other means have failed in accomplishing any cure whatever.

ASTHMA.

It is a common error to suppose every disease which is attended by oppressed breathing to be Asthma or Phthisis. We have shortness of breath in Consumption and Pneumonia, just as we do in Asthma, only that in these diseases it is always present, whereas in Asthma it occurs in paroxysms. Asthma is a spasmodic disease of the lungs, which is attended by a crying need for relief. It comes on suddenly and is attended with great difficulty of breathing while it lasts, but when the attack is over the patient breathes almost as well as in health.

Nervous Humors and a crying need for relief. It comes on suddenly and is attended with great difficulty of breathing while it lasts, but when the attack is over the patient breathes almost as well as in health.

It is a foolish conceit of many people to believe that if they have Asthma they must get consumption. The truth is the very opposite. They are more liable to fall into consumption because they have the Asthma. Another idea is that the Asthma itself is not a dangerous disease, and yet the published statistics of mortality for this city prove to the contrary that great numbers lose their lives every year by this foul destroyer of our health.

Without courage and perseverance nothing is curable. But with these, aided by proper and skillful treatment, Asthma can be cured even after the lungs are extensively diseased. Persons desiring treatment by the system of practice and use of the Inhalant and Compound Oxygen, which will cause no inconvenience or hindrance from business whatever. Every case of Asthma is curable. Eastern visitors and invalids will be wise in being cured before they return home. For their cases and better call at the office for an examination but, if possible to visit the office personally can write for list of questions and treatment, but the list will be sent free of charge. THERE were several more failures among the New York stock brokers yesterday.

Bar silver has fallen to 98 cents in New York, in sympathy with the disturbed money market.

A CORRESPONDENT, in this issue, furnishes cogent reasons why the offices of City and County Tax Collector should be combined.

TALK about building booms! In London over a thousand new houses are built every month. This means an increase of a population fully equal to that of Los Angeles every year.

THE Maine, the largest vessel in the American navy, a full description of which was given in last Sunday's TIMES, was successfully launched in the Brooklyn Navy Yard yesterday.

THE Los Angeles Republicans held their caucus in the various city precincts last night. The primary election will be held on the 20th and the convention on the 21st of this month.

THE Democrats of the Ninth Ward will ignore the cut-and-dried caucus programme of their party and hold a meeting, on Friday evening, to recommend to the convention a Councilman from that ward.

THE withdrawal of \$25,000,000 in a lump is enough to temporarily embarrass any bank. It is now claimed that the action of the Russian Government, in making such withdrawal, is what chiefly caused the Baring Brothers' trouble.

THE Sunday school closing election went off quietly yesterday. No great interest was shown by the general public. The Sunday closers carried the election by about 500 votes. It now remains to be seen what the Council will do in the matter.

SENATOR INGALLS has written to a citizen of San Diego that he will cordially assist in the promotion of such legislation as will insure protection to that harbor. The doughty Kansas Senator apparently entertains no doubt that he will retain his seat.

THE latest boom town is Pierre, which has just been voted the capital of South Dakota. It has a population now of only 5000, but the people are encouraged by a prediction made by Phil Armour that "Pierre will be the next largest city in the Mississippi Valley."

AN evening paper, the Express, intimates that the course of the Herald, in censuring the judge in the Edelman case, is a fit subject for general condemnation. The Herald made a mistake in dragging politics into the discussion. It is not a question of party politics, but of the effective administration of justice. Otherwise the remarks of our morning contemporary are seemingly, pertinent and just, and will be so recognized by crime-hating and law-abiding citizens.

ANOTHER wealthy citizen of this county was notified by his banker, a couple of days ago, that there was a note for \$50 in the bank signed by J. M. D.—n, and indorsed by said wealthy citizen. In view of recent light that has been thrown on these matters, from the bench and elsewhere, we have no hesitation in hastening to assert that the banker and the wealthy citizen are liable to be charged with "persecution" for taking notice of such little innocent pleasures as forcery. If they persist in being so particular about the use of signatures of hand, without permission, they will run the terrible risk of being placed in the same category with the wicked and persecuting newspapers.

DAY before yesterday, the Trombone rocklessly intimated that the Board of Supervisors ought to make a better showing with the county road money. What induced it to make such a daring attempt to emulate the "coarse and brutal" in journalism is unknown, but we presume that it was driven to it by hunger. It is well known that the most harmless animals become fierce and desperate when suffering from starvation. Readers of the "Bone" had scarcely recovered from the severe shock which this brutal attack gave them when they were relieved by noticing, in yesterday's issue, a fulsome editorial apology three-fourths of a column in length. The Starvation Band should be more careful in future, and take a reef in their waistbands when hunger begins to gnaw their "witals."

## THE INDIANS AND THE RESERVATION SYSTEM.

The reports which come from the Indian country of the Northwest are very conflicting. Citizens of that section are greatly alarmed, while Gen. Miles insists that there is no immediate danger. This would be more reassuring were it not that experience teaches that, in the case of almost every Indian outbreak in the Southwest, the military have disclaimed all need for alarm up to the latest moment, and even after settlers have been killed by Indians, have stoutly maintained that the work was done by renegade white men. Why such a course should be pursued is not clear.

An uprising in the Northwest would be a far more serious affair than any of the recent Apache outbreaks. It is said that the Sioux and allied tribes could put 15,000 well-armed warriors in the field. In no recent Apache outbreak have there been more than one per cent of that number of hostiles on the warpath capable of bearing arms. Then, again, the Sioux are much more daring and courageous than the Apaches. They will meet an enemy on the open plain, which the Apaches will never do if they can possibly avoid it. On the other hand, the Northwestern country is more open, with less facilities for ambush and escape than exist in the mountains and ravines of Arizona, New Mexico and Sonora.

But why, it may well be asked, are these 15,000 Indians allowed to be well armed and supplied with ammunition? Why are they allowed to possess the means of murdering white settlers, whenever it may enter their heads to do so? They are supplied by a bountiful Government with provisions and other necessities. If the food furnished them will not suffice without the addition of extra rations, why can they not till the soil to secure the rest of their food, as ordinary unsubsidized white men have to do? Why should they be able to ride around over the country, shaking their guns, of the latest approved patterns, at peaceable citizens, and frightening them from their homes? Why, in short, should the Indian be pampered and petted on reservations and supplied—or allowed to be supplied—with arms, while the poor white settler of the Northwest has a hard struggle to make a living for himself and family and can often not save enough over to buy the most effective weapons to protect his life and property and the lives of those who are dear to him?

It is a palpable and undeniable fact that the entire system of Indian reservations needs a thorough overhauling and amendment. Hitherto all the important reservations have been in Territories, which had no voice or influence at Washington, and were powerless against the Indian agency ring; but now that Dakota, Wyoming and Montana are States, they may be able to obtain reforms in the system of Indian management which will bring relief, not only to themselves, but also to the Southwestern Territories, which are in the same plight.

## CITY VERSUS COUNTRY—THE HAPPY MEDIUM.

The census office is about to issue a bulletin which will give the population of cities having more than 8000 inhabitants. The list will embrace over 400 cities. One surprising fact which the census will show is the stupendous growth of urban population—the emigration of the agricultural population to the cities. During the last decade the gain has been more than 60 per cent. Superintendent Porter says:

Speaking roundly, it may be said that in 1790 one-thirtieth of the population was found in cities of more than eight thousand; in 1850 one-twenty-fifth, in 1870 one-twenty, in 1890 one-twelfth, in ## QUIET AND WEAK.

## Wall Street Relaxes Into a State of Dullness.

Two Firms of Brokers Announce Their Suspension.

The Day's Business Results in Many Marked Losses.

A Receiver Will Be Appointed for the North River Bank—The Barings and Their Affairs.

By Telegraph to The Times.

NEW YORK, Nov. 18.—[By the Associated Press.] The shrinkage in the volume of business which was so marked yesterday made further progress today, and the returning dullness indicating no material demand for stocks induced more selling by the bears, and the tone of the market was weaker than it has been since Saturday, resulting in many marked losses for the day, among which are Pacific Mail 34, Union Pacific 24, Atchison 12, St. Paul 13, Burlington 13. There was a renewal of the old bear tactics of spreading reports reflecting upon the financial standing of prominent firms in the street, etc. The monetary situation was one of the most influential factors, however, in restricting buying. Two failures were announced, and while neither had much influence to lower prices, they acted as a further deterrent from buying.

Stocks opened quiet and irregular without excitement, and with prices well sustained. The general list advanced small fractions over the opening, with Villards in the lead. At 10:45 the announcement was made of the failure of P. M. Galland, a stock broker, with liabilities of \$1,000,000. He assigned to C. E. Minor. The failure was owing to several banks calling in loans.

The assignee said that the suspension was due to the general depreciation of the values of collaterals, which had gone so far when the loans to the firm were called that they could not be met, although the firm has what ordinary times would be amply sufficient to pay its borrowed money. The firm held such good securities that if the market improves they will be able to pay their indebtedness and have a surplus left.

Mr. Fitch of the suspended firm, said: "Of course we hope to resume business shortly. Our being able to do so, however, depends largely upon the banks and trust companies. If they are lenient with us we may come out all right. If they press us the termination of our suspension is not so clearly foreseen."

Stocks during the forenoon were still irregular and unsettled, both here and in London. As on yesterday there was a great deal of arbitrage business, owing to the great differences in prices of the same stocks in the two markets. Scarcity of money in this market, owing to the timidity of lenders, is now the most important factor in the market. Northern Pacific, Northern Pacific preferred and St. Paul were the only conspicuously active stocks, and the trading in Northern Pacific preferred was remarkable for the transfer of some blocks. At 11 o'clock the market was fairly active and steady at about opening prices.

After 12 o'clock liquidation assumed larger proportions, with a marked increase in business. Material losses were sustained in all the leading stocks. The features of the dealings was Pacific Mail, which had been extremely dull during the forenoon. It became suddenly very active, and was knocked down to 24, against 33 last night, then recovered 2. The rest of the list also suffered severely in a short drive. Union Pacific lost 14, Western Union 14, Atchison 11, with no recovery of note. At 2:15 the market was quiet but weak at the lowest prices of the day.

At 2:45 W. F. Owens announced his suspension on the Stock Exchange. He had no outstanding contracts on the Exchange.

At the close money was tight at 3 to 30 per cent., last loan at 3. Stocks in the last hour showed no animation. After further slight losses some recovery was shown and the market closed quiet, and heavy to weak at or near the lowest prices of the day.

## TALK OF THE STREET.

The Issue of Clearing House Certificates—The Barings.

NEW YORK, Nov. 18.—[By the Associated Press.] Frederick D. Tappan, chairman of the clearing house, says that a considerable amount of certificates were taken out today by the banks, not with the intention of using them immediately, but for the purpose of easing the money market if necessary. Clearings went through all right this morning. The transactions were very large, aggregating \$215,000,000.

Thomas Baring, a member of the firm of Kidder, Peabody & Co., the American agents of the Baring Bros., said this morning: "I wish to deny in the most emphatic terms the statement that Baring Bros. will go into liquidation and cease to exist within a few years. There is absolutely no other foundation for the statement than the possible retirement of Lord Revelstoke from the head of the house. To accomplish this there may possibly be a nominal liquidation, but the business of the bank would continue as before in the hands of the reconstituted firm. It is not even certain that Lord Revelstoke will retire, though, as he is 60 years old, it is not improbable. If the matter had been definitely settled, I, being his brother, ought to have heard of it."

Judge O'Brien issued an order today requiring cause to be shown forthwith why a receiver should not be appointed pending the suit which the Attorney-General has brought to dissolve the North River Bank. A temporary injunction was also secured restraining the officials from interfering with the affairs of the bank. "The case was argued during the day, and, at the conclusion of the arguments, the judge reserved his decision."

Bank Superintendent Preston today made an affidavit relative to the amount of assets and liabilities of the North River Bank. It showed: Assets, \$2,493,582; liabilities, \$2,393,587, a deficiency of \$99,994.

Council for the North American Company authorizes the statement today that all loans matured have been paid off and none of the loans now outstanding will fall due until after the end of the year.

TAKE HER, OH BRIDEGRROOM.

The Cruiser Maine Sails into Old Ocean's Arms.

NEW YORK, Nov. 18.—[By the Associated Press.] Flags and bunting made the navy yard very bright today. All the cruisers were in full dress, and the old-fashioned place had a holiday appearance. The occasion was the launching of the great armored cruiser Maine. Just after 10 o'clock Secretary of the Navy Tracy arrived with his party and was received by all the officers of the yard. As he entered the main gate a salute of nineteen guns was fired from the Vermont. Final preparations for the launching were at once begun. Promptly at noon, amid the cheers of thousands of spectators and the music of the "Star Spangled Banner," the big cruiser started down the incline. As she rushed into the water Miss Wilmerding, granddaughter of Secretary Tracy, broke a bottle of American champagne against the starboard bow, saying "I christen thee Maine." A mighty cheer went up from the assembled crowd, while tugs, yachts and war vessels saluted with bells, whistles and guns. The launch was pronounced a success.

The Maine is 324 feet over all, 57 feet in extreme breadth, has a mean draught of 21 feet, a displacement of 6682 tons, a speed of 17 knots, and twin screws driven by engines with 9000 horse-power. Her armament is four 10-inch and six 6-inch rifles, and a secondary battery of four 8-pounders, eight 3-pounders, two 1-pounder rapid firing guns, four revolving cannon, four Gatling guns, and seven torpedo tubes. Her side armor belt will be twelve inches in thickness.

## SEEKING A SITE.

THE LOCAL WORLD'S FAIR DIRECTORY OBSTINATE.

Commissioner De Young Offers a Resolution Demanding an Undivided Exhibit—Opposition to the Lake Front.

By Telegraph to The Times.

CHICAGO, Nov. 18.—[By the Associated Press.] The National World's Fair Committee assembled again this afternoon. The report of the Committee on Classification completed was laid before it. The site matter soon came to the front. Mr. Mercer of Wyoming offering a resolution to the effect that only the fine arts building be allowed on lake front. Under a resolution previously adopted, evidently having in view the prevention of trouble, this resolution went to the Committee on Buildings.

Commissioner De Young of California then got up, however, and offered a preamble and resolution setting forth that the double site was not agreeable to the judgment and business sense of the commission; that the site that the commission had been offered was a misrepresentation on the part of the Chicago local directory in regard to the use of lake front, and that while they have temporarily rescinded this action, the commission feels that they may be imposed on again; therefore, that the action of the commission, in accepting the various sites tendered them, be rescinded, and the board of directors requested to immediately furnish the commission with a site where the exhibition can be held as one exhibit.

This started quite a squabble. De Young refusing to let the resolution be shelved in a committee. Finally, it was ordered printed for consideration tomorrow. Hopes are expressed among the commissioners that the site matter will be settled without further trouble. The South Park Board has declined to remove all restrictions from the use of Washington Park, and this evening the local directory reaffirmed its adherence to the plan of putting the main buildings on Jackson Park and the lake front.

Scrofula Sores.

"My adopted boy, aged 14 years, suffered terribly from scrofula sores on his leg, which spread till they at one time formed one great sore from the calf of his leg up to his thigh, partially covered with scab, and discharging matter continually. The medicine became contracted so that his leg was drawn up and he could hardly walk. We tried everything we could hear of, without success, until we began giving him Hood's Sarsaparilla. In just a month, after he had taken two-thirds of a bottle, the sores entirely healed, his leg is perfectly straight, and he

## JOHN BROWN HONORED.

## A Gathering of the Old Abolitionists' Friends.

## OWEN BROWN'S GRAVE VISITED

Those Who Were Present—Notes and Comment on Local Topics of Interest—Personal and Brevities.

A few friends of John Brown, a son of John Brown, the famous apostle of abolition, assembled Monday at his home north of the city to do him honor. Among those present were James Townsend, an old-time friend of John Brown; Mrs. Dongar, Mr. and Mrs. William Mingus, Miss Mary Mingus, late of Cedar county, Iowa; Zeno Taber and wife, L. H. Michener, Mr. Hayward, Mrs. Miller and Mrs. Hannah Maxson. The latter lady is the widow of William Maxson, formerly of Springfield, Iowa, who owned the house that was once the famous rendezvous of John Brown and his party during the winter of 1858-9.

Those present, after partaking of a good dinner such as the wives of Iowa farmers well know how to produce, visited the grave of the late Owen Brown, and thence took a stroll about the neighboring hills and cañons. Reminiscences of old times were in order and a thoroughly enjoyable day was spent.

The chief topic of conversation was how speedily had the prophecy of John Brown been fulfilled, when he said to the court of Virginia: "You may take my life, but a million of men will rise up to put down the evils of slavery."

## How Will the Streets Be Lighted?

## ELECTRICITY VERSUS GAS

Something About the Specifications—An Annual Church Meeting—Officials Elected—Other Locals.

Now that the fire-alarm system is settled upon, interest naturally centers in the future lighting of our streets. The fact that the people have expressed themselves strongly in favor of maintaining the present system, or one as good, has not deterred the Council from pursuing the very commendable task of securing the most light at the least cost.

Sealed bids have accordingly been invited for illuminating the city streets either by gas or electricity, the same to be presented on or before the morning of December 6. The specifications on file at the City Clerk's office provide that in the case of electricity the arc lamps must be of 1200 candle power, and be lighted on a 12 o'clock moonlight schedule. Bids will be received for either twenty-five, thirty-five, forty or fifty lamps and for either one or two year contracts. In the residence portion of the town, except on Marengo avenue, the lamps are to be suspended forty feet above the ground, and in the business portions thirty feet.

How much competition among bidders will result remains to be seen; at any rate the taxpayers will lose nothing and may gain a good deal.

## A MARVELOUS MESMERIST.

People Hypnotized at Will by the Wonderful Glimpse of an Eye.

(Minneapolis Dispatch in the Chicago Times.)

Herbert L. Flint is a mesmerist and has the power of fascinating by the eye. It is a black, fierce, flashing eye he has, and he has the power of throwing men into a hypnotic state and putting them entirely at his mercy by the power of his glance.

Yesterday afternoon Mr. Flint gave a private exhibition of his power to a party of newspaper men and physicians. He had two young men there as "subjects," with whom he had been working for the last week and whom he was able to throw into a trance by the mere wave of the hand.

The first thing he did was to take one young man, and by pressing his hand upon his temple and his heart, lowered his pulse from ninety-six to seventy-one beats per minute, then he raised the boy's pulse to 100. He laid him upon a couple of chairs, his head on one and his shoulders on the other, told him to be still, and four men, including Mr. Flint himself, who is a large man, and weighs perhaps 225 pounds, climbed upon the boy, but he was stiff as a board. Then the mesmerist told him to hold out his arm rigidly, and two men were unable to bend it. The mesmerist clapped his hands, the boy came to with a start, knew nothing of what had happened, but moved his eyes drowsily, and said that he felt as though he had been asleep.

Then the operator took the other young man in hand. He put him to sleep by darting at him with those flashing eyes of his. He took a needle, gathered his skin together, and ran the needle and thread through his arm several times.

"You will notice that the blood flows at the wound. Now I will stop the circulation," said he.

He took the needle, ran his fingers across the boy's cheek several times, pushed it through the flesh and pulled it out again. There was not the least sign of a move, not the slightest quiver of pain.

Then he took the young man, laid him out on the chairs and made one side of his body limp and insensitive of pain the other rigid and insensible. On one side he was able to prick the subject, lay his finger on his eyeball without the slightest responsive quiver of pain. The other eye, when touched, quivered and watered immediately.
